

Polishing cloth light fur non woven

Description

Use the industrial polishing cloth in combination with a detergent for optimal results. Thanks to the variegated colours, stains are less noticeable, making the cloth look clean for longer during use. The heavy 135 g/m² material ensures high absorbency, ideal for intensive cleaning. In addition, the cloth is machine washable, making it suitable for repeated use and long-term use.

Specifications

Item code	01010211
Color	Light fleck
